A STRONG AND HEALTHY MICHIGAN FAM-ILY WHO PREFER INDOOR LIFE

Twenty years ago John Flynn, of Marquette, Mich , then thirty-five years old, withdrew from society and shut himself up at home with a sister, Mrs. Donobue. for twelve or fourteen years. He was seen occasionally in the yard, but always at night. Finally he disappeared altogether, and after a few months public interest died on and he was forgotten. Nine years'ago young Lawrence Dono-

hue, a son of Mrs Donohue, suddenly dis appeared This revived the interest in Flynn's disappearance Mrs Donohue lives in a hovel south of the city No one remembers having seen the curtains raised in fifteen years. For several days there

Monday the City Marshal determined to investigate, and, accompanied by two detectives, forced his way in Filth was everywhere in an isolated room he found a man whose hair hung below his should ers, his beard was long and unkempt. It proved to be John Flynn, who dropped out of existence twen y years ago. When taken in charge he fought like a wild beast.

It was also discovered that Lawrence Donohue was confined in the same house, but the most diligent search failed to find him he having some secret hiding place which the woman would not disclose Sbe claims that the old man had not been out side before in twenty years, and that Lawrence had not stepped outside for nine years. The alire whishle was sounded and soon some one hundred men were on hand to do all they could to put out the fire. Fortunately there was no wind at the time and after a heroic effort on the pit of those present, the fire was put out. This is the third fire that has started in this village within a very short time, says a correspondent, and still we are doing nothing in the way of organizing after dispariment. No engine, no landers, no water tanks, to assist in case fire should break out.

He is just a pure devil We have no doubt that Four House Painters and Paper Mr Dana will be able to return the compliment and go his neighbor one better

Since the conclusion of the races and the departure of the circus a large amount of counterfeit coin has been discovered in circulation at Washington Chicf Brooks, of the Secret Service, discovered that a gang of counterfeiters had been working the town in every direction. The counter fest dollars bear the date of 1884 and the halves are of the issues of 1853 and 1860 The dollar piece is eighty grains lighter thun the standard dollar Chief Brooks says his impression is that the counterful ers are either following the circus or the

prise visit, and the attention of the foreman was called to the matter A hasty glance gave him the impression that it had floated in from the f lobe offle, and a mes senger was dispatched to the foreman of the composing room of that establishment It proved to be a take of the laylor din ner on luesday evening which had blown away from that office, and, after floating around in the air had evidently lodged and was taken up by the wind again Wednesday morning and descended through the roof of the Traveller building, as stated above

Some of the Washington correspondents have been venting their personal spite against ex Speaker Keifer by sending out a great mees of stuff in connection with his selection as orator on the occasion of the unveiling of the Garfield statue First they were not going to permit him to deliver the oration at all then they had him limited to twenty minutes and finally as a precaution against the oration being extended beyond that time insisted that 1 On the First day of January, 1837, made to the piration of the twenty minutes whether the speaker had finished or not They seemed to forget that such a programme would be an insult to the dead as well as the living, but as a matter of fact all their talk had no real foundation Mr Keifer had ample time to delly er a "long oration | and we have no doubt it was an able one

The New York Herald says that the Republicans used the patronage of the Goyernment for party subsistence and in payment of party debts. We would like to have this apologist for the Administration inform us what Cleveland has been doing for the past two years? A more partisan use of the patronage than has been going on under the guise of reform during the first half of President Cleveland's term has never been witnessed in this country and the Herald knows it. Competent and honest officials have been removed right and left to make places for party workers, even the Civil Service Commission being regarded as a fitting place for the chairman of a Democratic committee, but the organs that have so much to say about the "wicked" use of the offices under Republican rule would have the people believe that the wholesale removal of o ficials by President Cleveland for political reasons must be judged by an entirely different standard. Consistency is a jewel that does not shine in the Mugwump

There is no probability that Senator Gorman's sleep will be disturbed any by the fact that the Boston Civil Service Record for May holds him up as a terrible BOUTELLE & BURR, PROPRIETORS. example of the awfully bad in politics, so long as the President lends a willing ear to his schemes to secure the spoils

The Camden County, New Jersey, Grand Jury was severely rebuked by Judge Parker They had failed to take any notice of the election frauds of last fall which caused the election of a Democratic United States Senator, and for this omission the A Democratic politician in Tennessee Judge said "I regret being compelled to bring to your attention again the mitted that the Democratic party in his outrageous frauds perpetrated upon the State needed some thing to stimulate it in ballot-box last fall, when the ballots of is he said, a possibility of a division in the taken from the boxes and altered For ranks of the Tennessee Democracy which these crimes no Grand Jury since has ever I regret very much to be compelled to make such a statement, but I must say-my duty to justice and law abiding citizens of the county demand ir—that if this Grand Jury permits this state of things to longer exist it would be better to dispense with Grand Juries in

future" The lury was composed of

The unveiling of the statue of the late President Garfield occurred in Washing ton yesterday with services appropriate to The Boston Heraid heads a Washington the occasion Gen Keifer delivered an after which Gen was a prominent member The statue is of bronze, 10 feet 6 inches in height, and The New York Horld having remarked, stands on a pedestal, looking away from what a noble mission for a great party is the Capitol, down Maryland avenue It by a column, and his left holding before

telegraph the Herald that he was born in As a matter of fact the Wardens were do-Georgia in 1851. We are inclined to the ing just what they were appointed to do, opinion that the Democratic Convention namely enforce the laws against hunting will hardly look to the Herald to select a doer with a dog, but even had they ex candidate for the second place on the ceeded their authority in the premises ticket and do not think that Mr Grady is does that furnish a shadow of justification for the brutal murder perpetrated by Graves is the life of a human be og to be weighed in the balance with that of The Pension Committee of the Grand dog The Age evidently thinks so but all instincts of humanity and the law itself to New York city Major Merrill of are against such a theory. In a recent sheet calle I Fiels is a comparison of the cost of Life Insurance between the Connecticut Mutual Life and the Royal Arcanum. I have to say that in this computation made by Mr. L. no allowance was made for the return of Surplus of the Connecticut Mutual, which goes to reduce the cost of the risk from year to year The dividends paid policy-holder of the Conecticut Mutual have equalled 30 per cent of the premiums receelved from them. This would materially change the figures made by Mr. L. as he has made no ac-count of dividends in his calcula-tions. All policies of the Connecticut Mutual have a value if not con-tinued, though it is better to keep in-

waters have surrounded the gas house, and it is impossible to further supply the city for the present.

At bheffield, a short distance below Frederickton, some sad scenes have been twinessed. People have been driven to whe upper stories of their dwellings, and a wdre obliged to take their stock into the house, with them. The Congregational minister had to take his cow into the parsonage, and the Methodist clergyman had it o provide like shelter for his borse. But othere was a great deal of stock that could not beisaved, which floated down stream with barns and other outbuildings. Hundreds of cords of wood, that had been cut during the winter and piled along the backs ready for shipment to the United States, have been curried off, representing the worldly possessions of many a family.

The Grand Procession.

At 11.30, the procession, which was a long and imposing one, started for the square. It was viewed by thousands of people. Gen. Baird and his aids preceded a carriage in which were Generals Sherman, Sheridanand Reserans, three of the four living commanders of the army of the Cumberland, Gen. Buel being urable to be present. Then followed the first and second divisions, G. A. R., the whole division under the command of Major Goodloe, of the marine torps. The grand stand was Everything Interrupted.

No mails from Boston by rail for 11 days, with no better prospect for a weak, is not a bright outlook. A careful measurement of the rise in the river shows over 60 inches, and this is not the month of the river. The loss that will follow this overflow will reach many thousands of dollars in the cessation of work alone, not to say anything of the property damaged. It is an impossibility to get vessels from the harbor under the bridge to the river beyond, and thus they cannot be loaded at the lumber mills.
